Virtech System Corporation
Business closed November 1993

Title: Vice President System Development
Dates: January 1988 to November 1993
Independent Computer Consultants

Provided consulting for IBM brand server products and associated software. Corporation was an IBM MAP (Marketing Assistance Program) providing support to IBM marketing personnel selling IBM hardware and software. Teamed with IBM personnel and client staff to plan, develop and implement information technical solutions. Continued to provide development, planning and implantation solutions as the Marketing Assistance Program evolved into the Business Partners Program. IBM's customer focus changed to provide in-house consultant services and Virtech was dropped from the program. Virtech continued to provide the similar services to the customer

directly. Also expanded business to provide services to third party used equipment vendors. Leased both an IBM 9370 with the VM operating system, and an IBM AS/400.
